PhotoPlus X5

PhotoPlus organizer
Keep on top of your growing photo collection and find your photos fast with the new organizer in PhotoPlus X5. Create smart albums that update automatically, plus you can tag & rate images for quick sorting and group similar photos together in stacks to make searching easier and faster. View your photos where they were taken on a Google™ Map and, with one click, you can upload your photos directly to Facebook® or Flickr®.

Photo Projects
Make stunning photobooks, cards, and collages you can be proud of! Photo Projects, included with PhotoPlus X5, is a fantastic collection of beautiful layouts and amazing graphics that will help you showcase your photos. There are layouts to suit any project so no matter what photographs you have, you'll be able to make something truly great.

Vibrance adjustment
Make images more vivid without loosing the natural skin and hair tones of your photo subjects. The smart Vibrance adjustment recognizes natural tones when making changes to vibrancy.

Clarity filter
Sharpen and enhance your pictures in one click! Seemingly in focus photos are made crystal clear with the intelligent Clarity filter – this is one tool you'll always want to use.

More blend modes
Create loads of amazing effects! PhotoPlus X5 now has even more blend modes that allow you to mix layers together for stunning results.

Brightness & contrast
Adjusting the brightness and contrast now gives you even better results by preserving more detail thanks to behind-the-scenes improvements.

Other New Features

Clip to Layer
Clip effects in the Adjustments tab to the layer below in one click – great for easily stacking or isolating effects.

Faster blending
Blending and changing blend modes is now virtually instant so you can create your works of art quickly.

New UI
The PhotoPlus X5 user interface has been updated and will be familiar with users of other X5 products.

Improved Adjustments Tab
Work faster using the new shortcuts, including restore default settings and clip to layer, in the Adjustments tab.

PhotoPlus X5

Get professional results

Raw Studio
Edit raw files from digital SLR cameras in the Raw Studio. Easily change white balance, highlights, exposure; reduce noise and chromatic aberration; adjust bit depth and more.

HDR image merging
Create jaw-dropping pictures that have an amazing color range by easily merging two or more photos with different exposure settings.

• 48-bit image editing for greater color depth and quality
• Import and export Adobe® Photoshop® files with layers
• Pressure studio for calibrating graphics tablets & pens

Edit, enhance & repair photos fast

PhotoFix
Quickly and easily fix common photo flaws in the PhotoFix studio. Remove red eye, spots, and blemishes; straighten pictures or crop images to any size.

Repair damaged photos
Return old and damaged photos to their former glory with easy-to-use scratch, spot and blemish removers. Simply scan in then import your photos to start working on them.

• Makeover studio for teeth whitening, tanning and more
• Non-destructive adjustment can be undone at any time
• Resize photos with minimal loss of quality

Be creative

Filter Gallery
Apply filters and effects like film grain, lens flare, page curls and more, or turn your pictures into works of art mimicking styles like oil, watercolor, and pencil.

Black & White Studio
Create that timeless look easily by converting any color photo to black & white, and make individual colors 'pop' for a creative image.

• Change how layers blend with each other when stacked
• Take people and objects out of one photo and put them in another using the intuitive Cutout Studio
• Show or hide layers and effects easily using masks

Organize, finish & share
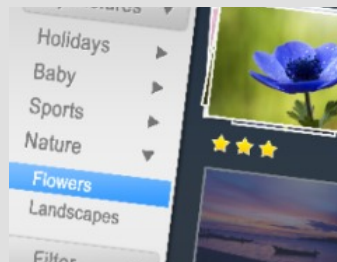

PhotoPlus Organizer
Catalogue your entire photo collection effortlessly in the organizer. New pictures are displayed instantly and related images can be stacked to make browsing easier.

Photo Projects
Create amazing photobooks and digitally framed pictures using the templates in Photo Projects. They're all fully customizable so you can add personal touches to make something special.

• Upload photos to Facebook® and Flickr® with one click
• Optimize photos for printing, email or the web
• View your photos on a Google™ Map
